

The BCI USA Chapter is focused on bringing value to you, our members. Everything that we have set before us has the number one priority to add value to your BCI journey. We have aligned our efforts into five key collaboration streams, each lead by a chapter board member who in turn will need your help to deliver value back to all our members. Each of the streams tie directly back to the BCI global strategy and mission. The collaboration streams are:

### **Community**

*Coordinators:* [Malcolm Reid](#) and [Roger Stearns](#)

*Focus:* Building and investing in partnerships with other resilience organizations and initiatives to grow our USA resilience community

### **Philanthropy**

*Coordinator:* [Frank Perlmutter](#)

*Focus:* Provide BCI expertise, time, and resources to non-profit organizations that support the resilience of our communities. Give back to the broader community via resilience related initiatives such as finding homes for displaced pets from natural disasters, assisting communities and non-profits with continuity and resilience planning initiatives

### **Diversity & Inclusion**

*Coordinator:* [Lisa Jones](#)

*Focus:* Provide opportunities for networking and building a community of different backgrounds, voices, and experiences. Ensure that we are hearing those who speak up. We are committed to supporting our members, establish alliances within our community, and perform outreach to higher education and professional institutions to build awareness of our industry.

### **Content & Communication**

*Coordinator:* [Hiram Barbosa](#)

*Focus:* Create and deliver relevant content and consistent communications to members via multiple channels – BCI website, social media, webinars, events, etc.

### **Leadership & Organizational Development**

*Coordinators:* [Katherine Whitaker](#) and [John Jackson](#)

*Focus:* Build the knowledge, skills, and abilities of the BCI USA chapter community by helping them develop and achieve their potential, so that the organizations they work for can succeed and grow.

Each of these collaboration streams can only be achieved with your help. WE NEED YOU to connect with the coordinators to help shape our collective future. Click on the link with their names and send them an email to start the conversation.
